TERRABIOTEN APPOINTS CHIEF TECHNICAL OFFICER

VANCOUVER, CANADA, February 8, 2011 – TerraBioGen Technologies Inc., a developer and marketer of proprietary technologies for the production of organic-based, high-value agricultural products from organic wastes, is pleased to announce the appointment of S.R. Prabhu as Chief Technical Officer of the company.

Prabhu has been employed with TerraBioGen as its' Senior Research Scientist/Research Manager for the past 8 years and has been the key individual in developing value in the Company's proprietary EATAD process and resulting soil fertility products. After completing graduate studies in Agricultural Microbiology from Tamil Nadu Agricultural University, India, Prabhu served the Agricultural Research Service (ARS) of the Indian Council of Agricultural Research for over a decade before joining TerraBioGen. To his credit, Prabhu has many widely adopted bio-resource technologies within the agricultural community. His primary responsibility with TerraBioGen includes the on-going optimization of the TerraBioGen EATAD process and the further development of innovative biological soil fertility products.

Blair Heffelfinger, President and CEO of the company stated that "this appointment reflects the important contributions Prabhu has been making for the company. As our biological research department continues to expand in the area of agricultural bioscience, Prabhu's role will continue to grow."

About TerraBioGen

Located in North Vancouver, BC, TerraBioGen Technologies Inc. is committed to research and development to continue to improve the efficiency of its technology and the quality of its agricultural products. It is further committed to developing a world wide marketing capability to ensure market acceptance of its products.
